

Extended Protection for Your Classic Vehicle 20 Years or Older Manufactured After 1929

Numbers Matching, Non-Matching Numbers, Engine Swaps, Powertrain Swaps, Rebuilds, Customizations, or Restomods.

ELIGIBLE VEHICLES

20 YEARS OR OLDER BACK TO 1930

AMERICAN CLASSICS

ASIAN CLASSICS

EUROPEAN CLASSICS

INELIGIBLE VEHICLES

- Vehicle purchase less than \$10,000
- Race Cars, Drag Cars, Funny Cars, Diesel Engines
- Vehicles with more than 775HP (Call for Exceptions)

*Vehicle for illustration purposes.

Coverage you can depend on.

Never Pay for Another Covered Vehicle Repair.

✓ Engine

The following internally lubricated parts: pistons, pins and rings, connecting rods and bearings, crankshaft and main bearings, push rods, valves, springs, replaceable guides, lifters, rocker arms, shafts and bushings, timing gear, guides, chain, tensioners and retainers, eccentric shaft, oil pump, intake manifolds, cylinder head gaskets, engine mounts and cushions, engine torque strut, harmonic balancer, flywheel (flexplate) and flywheel ring gear, all pulleys. Engine blocks and cylinder heads are also covered if Mechanical Breakdown was caused by an internally lubricated part or a part covered under this contract. All lubricated internal parts of the vehicle manufacturer installed turbo-charger or super charger if selected on the Registration Page of this policy.

✓ Transmission

(Automatic & Standard): All internally lubricated parts (parts that require lubrication to function), torque converter, and vacuum modulator. Also included: computer modules and solenoids, transmission mounts and internal linkage. Transmission cases are also covered if Mechanical Breakdown was caused by an internally lubricated part or a part covered under this contract.

✓ Transfer Case

(4 x 4 or All Wheel Drive): All internally lubricated parts (parts that require lubrication to function) within the Transfer Unit including: bearings, bushings, sprockets, chains, sleeves, and gears. Transfer cases are also covered if Mechanical Breakdown was caused by an internally lubricated part of a part covered under this contract. Transfer Units are only covered if selected on the Registration Page of this policy.

✓ Drive Axle

(Front and Rear Wheel Drive): All internally lubricated parts contained within the housing: axle shafts, constant velocity joints (CV joints unless boot is damaged or missing), universal joints, flexible joints, drive shafts, locking hubs, locking rings, supports, retainer and bearings. Differential housings, final drive housings, and trans axle housings are also covered if Mechanical Breakdown was caused by an internally lubricated part or a part covered under this contract.

▼ Items below ARE NOT INCLUDED in 3mo/500 miles or 6mo/1,000 miles

✓ Cooling

Radiator, fan, fan clutch, and water pump.

✓ Air Conditioning

Compressor, condenser, clutch pulley, clutch coils, evaporator core, accumulator, receiver/dryer, orifice, expansion valve, serpentine belt tensioner, temperature control unit, blower motor, air door actuators and motors.

✓ Electrical

Alternator, voltage regulator, starter motor, starter solenoid, ignition switch and locking mechanism unless unavailable separately and/or only available as part of steering column, front and rear wiper motors, headlamp switch, turn signal switch, cruise control transducer, washer pump and switch, rear defogger switch, heater/AC blower switch, electric seat motors as they apply to seat positioning (excludes lumbar, side supports, and airbags), electric window motors, power antenna motors, power door lock actuator, window regulators, and wiring harnesses for listed covered components only.

✓ Fuel System

Fuel delivery pump, fuel injection pump, and metal fuel delivery lines.

✓ Brakes

Master cylinder, power assist booster, vacuum assist booster pump, wheel cylinders, combination valves, disc calipers, self-adjusters and actuators.

✓ Power Steering

All internally lubricated parts within the steering gear housing including power steering pump, main and intermediate shafts, couplings, pitman arm, idler arm, tie rod ends and center link. The steering gear housing is covered if the damage is caused by the failure of an internally lubricated part.

✓ Suspension

Upper and lower control radius, thrust and trailing arms, shafts, upper and lower ball joints, steering knuckles, stabilizer shaft, linkage, track bar, kingpin, spindle and spindle supports, torsion bars, coil and leaf springs, and wheel bearings.

AVAILABLE OPTIONS

- Carburetor Coverage
- Convertible Top
- Entertainment Package
- Enhanced Labor Rate
- Component Upgrade
